Marriott Vacations Worldwide Reports Certain Preliminary Second Quarter Financial Results

ORLANDO, Fla. – July 26, 2018 – Marriott Vacations Worldwide Corporation (NYSE: VAC) (the "company" or "MVW") today reported certain preliminary estimated second quarter financial results in connection with certain financing transactions related to the previously announced combination of MVW with ILG, Inc. ("ILG") and provided updated guidance for the full year 2018 below.

Preliminary Estimated Second Quarter 2018 Results:

- Total company vacation ownership contract sales were \$233 million, an increase of \$18 million, or 8 percent, compared to the prior year period.
 - The company estimates that the 2017 hurricanes negatively impacted contract sales in the 2018 second quarter by more than \$3 million. Excluding that impact, the company estimates that total company contract sales would have grown 10 percent compared to the prior year period.
- North America VPG totaled \$3,672, a 3 percent increase from the second quarter of 2017. North America tours increased 5 percent year-over-year.
- Net income is expected to be between \$8 million and \$13 million in the second quarter of 2018.
- Adjusted EBITDA is expected to be between \$75 and \$77 million, a decrease of between \$6 to \$8 million year-over-year.
 - Excluding the impact of nearly \$10 million of unfavorable revenue reportability year-over-year, Adjusted EBITDA increased \$2 to \$4 million compared to the prior year period.
- Development margin was \$40 million compared to \$53 million in the second quarter of 2017. Development margin percentage was 19.0 percent compared to 25.6 percent in the prior year quarter.
 - Total company adjusted development margin percentage, which excludes the impact of revenue reportability and other charges, was 20.0 percent in the second quarter of 2018 compared to 23.2 percent in the second quarter of 2017.

Balance Sheet and Liquidity

On June 30, 2018, cash and cash equivalents totaled \$547 million. Since the beginning of the year, real estate inventory balances decreased \$38 million to \$685 million, including \$325 million of finished goods and \$360 million of land and infrastructure. The company had \$1.3 billion in debt outstanding, net of unamortized debt issuance costs, at the end of the second quarter, an increase of \$237 million from year-end 2017, consisting primarily of \$1.1 billion of debt related to our securitized notes receivable and \$196 million of convertible notes.

During the second quarter of 2018, the company completed the securitization of \$436 million of vacation ownership notes receivable at a blended borrowing rate of 3.52 percent and an advance rate of 97 percent. Approximately \$327 million of the vacation ownership notes receivable were purchased on June 28, 2018 by the MVW Owner Trust 2018-1 (the “Trust”), and all or a portion of the remaining vacation ownership notes receivable may be purchased by the Trust prior to January 15, 2019. This transaction generated approximately \$423 million of gross proceeds, of which \$106 million will be held in restricted cash until the remaining vacation ownership notes receivable are purchased by the Trust. Approximately \$10 million was used to pay transaction expenses and fund required reserves and the remainder will be used for general corporate purposes.

As of June 30, 2018, the company had approximately \$248 million in available capacity under its revolving credit facility after taking into account outstanding letters of credit, and approximately \$40 million of gross vacation ownership notes receivable eligible for securitization.

In circumstances where a customer applies any or all of their existing ownership interests as part of the purchase price for additional interests, MVW includes only the incremental value purchased as contract sales. Contract sales differ from revenues from the sale of vacation ownership products that MVW reports in its income statements due to the requirements for revenue recognition described in Footnote No. 1, "Summary of Significant Accounting Policies," to MVW's audited consolidated financial statements included in the Current Report on Form 8-K filed with the SEC on June 5, 2018. MARRIOTT VACATIONS WORLDWIDE CORPORATION
NON-GAAP FINANCIAL MEASURES

In our press release and schedules we report certain financial measures that are not prescribed by GAAP. We discuss our reasons for reporting these non-GAAP financial measures below, and the financial schedules included herein reconcile the most directly comparable GAAP financial measure to each non-GAAP financial measure that we report (identified by a double asterisk (“**”) on the preceding pages). Although we evaluate and present these non-GAAP financial measures for the reasons described below, please be aware that these non-GAAP financial measures have limitations and should not be considered in isolation or as a substitute for revenues, net income, earnings per share or any other comparable operating measure prescribed by GAAP. In addition, these non-GAAP financial measures may be calculated and / or presented differently than measures with the same or similar names that are reported by other companies, and as a result, the non-GAAP financial measures we report may not be comparable to those reported by others.

Adjusted Net Income

We evaluate non-GAAP financial measures, including Adjusted Net Income, Adjusted EBITDA, and Adjusted Development Margin, that exclude certain items in the quarters and first halves ended June 30, 2018 and June 30, 2017, and the fiscal year ended December 31, 2017, because these non-GAAP financial measures allow for period-over-period comparisons of our on-going core operations before the impact of these items. These non-GAAP financial measures also facilitate our comparison of results from our on-going core operations before these items with results from other vacation ownership companies.

Certain items for the 2018 second quarter consisted of \$20 million of acquisition costs associated with the pending acquisition of ILG, \$16 million of litigation settlement charges, including \$11 million related to a project in San Francisco, \$4 million related to a project in Lake Tahoe and \$1 million related to projects in Europe, and \$7 million of losses and other expenses associated with fraudulently induced electronic payment disbursements made to third parties. These exclusions increased EBITDA by \$43 million.

Certain items for the 2017 second quarter were less than \$1 million and was comprised of acquisition costs, litigation settlement expenses and losses and other expense. These exclusions did not have an impact on Adjusted EBITDA.

Earnings Before Interest Expense, Taxes, Depreciation and Amortization (“EBITDA”) and Adjusted EBITDA

EBITDA is defined as earnings, or net income, before interest expense (excluding consumer financing interest expense), provision for income taxes, depreciation and amortization. For purposes of our EBITDA and Adjusted EBITDA calculations, we do not adjust for consumer financing interest expense because we consider it to be an operating expense of our business. We consider EBITDA and Adjusted EBITDA to be indicators of operating performance, which we use to measure our ability to service debt, fund capital expenditures and expand our business. We also use EBITDA and Adjusted EBITDA, as do analysts, lenders, investors and others, because these measures exclude certain items that can vary widely across different industries or among companies within the same industry. For example, interest expense can be dependent on a company’s capital structure, debt levels and credit ratings. Accordingly, the impact of interest expense on earnings can vary significantly among companies. The tax positions of companies can also vary because of their differing abilities to take advantage of tax benefits and because of the tax policies of the jurisdictions in which they operate. As a result, effective tax rates and provision for income taxes can vary considerably among companies. EBITDA and Adjusted EBITDA also exclude depreciation and amortization because companies utilize productive assets of different ages and use different methods of both acquiring and depreciating productive assets. These differences can result in considerable variability in the relative costs of productive assets and the depreciation and amortization expense among companies. Adjusted EBITDA reflects additional adjustments for certain items, as itemized in the discussion of Adjusted Net Income above, and excludes non-cash share-based compensation expense to address considerable variability among companies in recording compensation expense because companies use share-based payment awards differently, both in the type and quantity of awards granted. Prior period presentation has been recast for consistency. We evaluate Adjusted EBITDA as an indicator of operating performance because it allows for period-over-period comparisons of our on-going core operations before the impact of the excluded items. Together, EBITDA and Adjusted EBITDA facilitate our comparison of results from our on-going core operations before the impact of these items with results from other vacation ownership companies.

Free Cash Flow and Adjusted Free Cash Flow

We evaluate Free Cash Flow and Adjusted Free Cash Flow as liquidity measures that provide useful information to management and investors about the amount of cash provided by operating activities after capital expenditures for property and equipment, changes in restricted cash, and the borrowing and repayment activity related to our securitizations, which cash can be used for strategic opportunities, including acquisitions and strengthening the balance sheet. Adjusted Free Cash Flow, which reflects additional adjustments to Free Cash Flow for the impact of organizational and separation related, litigation, and other cash charges, allows for period-over-period comparisons of the cash generated by our business before the impact of these items. Analysis of Free Cash Flow and Adjusted Free Cash Flow also facilitates management’s comparison of our results with our competitors’ results.
